Allowable Subject Matter

Claims 1-17 are allowed.

The prior art of record does not disclose or teach a magnetic shield assembly for confining rotor windings with a plurality of axially spaced rings, said rings having a surface depression with the surface depression filled with epoxy adhesive in combination with the other features of claim 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
